

# Do You Love Your Child Unconditionally?

*Most Parents DO...  
Some Parents Just  
DON'T KNOW  
HOW...*

## SUNSERVE

HELPING PEOPLE CONNECT...

*with the Children they Love*

*"Through SunServe we found adult programs for guidance, as well as, the LGBT Youth Group where our 13 year old son can be himself. His bravery to step out from his comfort zone and tell us he was gay was monumental. He is living his life open and free."*

**Proud Parents**  
Broward County Florida

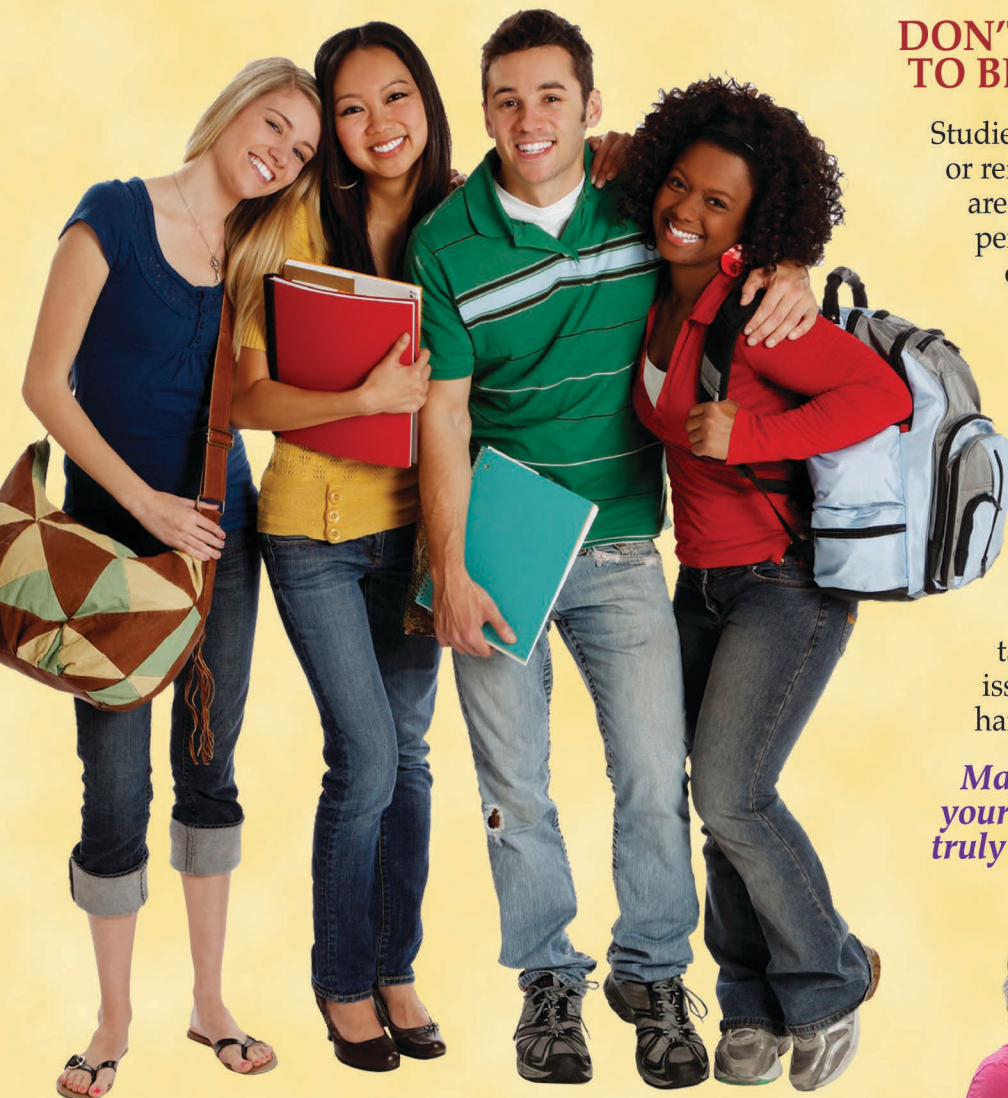

## DON'T ALLOW YOUR CHILD TO BECOME A STATISTIC.

Studies show that children of parents who reject or refuse to address sexual identity issues are more likely to have poor academic performance, use drugs, suffer from depression or even attempt suicide.

Learn how to have conversations with your child about sexual identity, talk to other parents, or even find a support group.

Raising children is not always easy. Knowing that there are resources available such as SunServe and the Broward County School District's Department of Diversity to help parents talk to their children about sexual identity issues can be crucial to their survival in a harsh world.

*Make sure that no matter how you feel, your child knows that your love is truly unconditional.*
